

IIT INDORE

Complete Admission & Academic Guide Academic Year 2026–27

PART 1 OF A MULTI-PART REPORT

This installment covers: Institute Overview, Rankings & Accreditation

Compiled from official IIT Indore, NIRF, and Ministry of Education sources

Last Updated: 11 July 2026

Document Status & Roadmap

This guide is being built progressively, section by section, so that every fact can be verified against an official source before it is included. This file currently contains Section 1 only. Subsequent sections will be added in follow-up files as they are researched.

Completed in this file

- Section 1 — Institute Overview (history, vision, campus, schools/departments, centres, rankings, accreditation)

Planned for upcoming installments

- Section 2–3 — Undergraduate & Postgraduate Programmes
- Section 4 — Admission Process (JEE/JoSAA, GATE/COAP, JAM, PhD)
- Section 5 — Fee Structure
- Section 6 — Hostel Information
- Section 7 — Scholarships
- Section 8 — Placements
- Section 9 — Campus Life
- Section 10 — Document Checklists
- Section 11 — FAQs
- Section 12 — Important Contacts

Important note on 2026–27 data:

As of this writing (July 2026), IIT Indore has not yet published a separate 2026–27 fee/seat-matrix notification for most programmes; the latest verified official figures are for the 2025–26 academic year unless stated otherwise. Every figure in this report is labelled with its official source and the year it applies to. Where 2026–27-specific data does not yet exist, this is marked 'Official Information Not Available' rather than estimated.

SECTION 1 — INSTITUTE OVERVIEW

1.1 History

IIT Indore was established by the Government of India in 2009, as one of eight new IITs set up that decade. It was created under the Institutes of Technology (Amendment) Act, 2011 (passed by the Lok Sabha on 24 March 2011 and the Rajya Sabha on 30 April 2012), which also declared seven other new IITs and converted the Institute of Technology, Banaras Hindu University into an IIT.

The foundation stone for the permanent campus was laid on 17 February 2009 at Simrol, on Khandwa Road, about 25 km from Indore city, in Madhya Pradesh. From 2009–10 to 2015, the institute operated out of a temporary campus at the Institute of Engineering and Technology, Devi Ahilya Vishwavidyalaya, under the mentorship of IIT Bombay, with Dr. Pradeep Mathur as founding director. The first batch graduated in 2013, with the first Convocation held on 8 June 2013. The institute moved to its permanent Simrol campus in 2015–16.

1.2 Institute of National Importance Status

IIT Indore is officially recognised as an 'Institute of National Importance' by an Act of the Parliament of India (the Institutes of Technology Act, as amended in 2011/2012). This status is shared by all IITs and confers statutory autonomy in academics, administration, and finance.

1.3 Vision & Mission

IIT Indore's stated vision positions the institute as part of India's initiative to become a global knowledge and technology leader, continuing the tradition of the older IITs by focusing on research-based education and innovation-driven research and entrepreneurship, achieved 'with humanistic concerns.' Its objectives include fostering an academic community with independence of thought and free expression of research and innovation ideas, and providing continuously updated knowledge balanced with hands-on training on sophisticated facilities.

The full official Mission, Vision & Objectives document (English) is available at:

Official PDF: https://www.iiti.ac.in/public/storage/Mission_Vision_Objectives.pdf

1.4 Campus Overview & Area

The permanent campus is located at Simrol, Khandwa Road, in the Dr. Ambedkar Nagar (Mhow) tehsil of Indore district, Madhya Pradesh, roughly 25 km from downtown Indore. The campus spans approximately 501.42 acres (about 2.1 sq. km). All administrative offices, the Material Management Section, Finance & Accounts, the School of Basic Sciences, School of Humanities and Social Sciences, School of Engineering, basic-science and engineering laboratories, and the Central Library (Learning Resource Centre) are housed on this campus.

1.5 Schools, Departments & Academic Units

As listed on the official departments page, IIT Indore's academic units are:

- Astronomy, Astrophysics and Space Engineering (DAASE)
- Chemical Engineering
- Chemistry
- Civil Engineering
- Computer Science and Engineering
- Electrical Engineering
- Humanities and Social Sciences
- Mathematics
- Mechanical Engineering
- Mehta Family School of Biosciences and Biomedical Engineering
- Mehta Family School of Sustainability
- Metallurgical Engineering and Materials Science
- Physics
- School of Innovation

1.6 Centres & Research Facilities

Notable centres and facilities listed on the official site include:

- Sophisticated Instrumentation Centre (SIC) — a national facility
- DRISHTI CPS — a Technology Innovation Hub (TIH) in Cyber-Physical Systems established under the National Mission on Interdisciplinary Cyber-Physical Systems
- TEQIP Centre
- QIP Centre (Quality Improvement Programme)
- IITI Advanced Centre for Entrepreneurship (ACE) Foundation — the institute's incubation/entrepreneurship arm
- Makerspace Laboratory
- Central Workshop

Official Information Not Available in this installment: consolidated patent counts, full incubation-centre startup portfolio, and complete list of active international MoUs. These require direct extraction from the Institute MoUs page and Annual Report, planned for a later installment.

1.7 Accreditation

Third-party ranking aggregators report that IIT Indore holds NAAC A++ accreditation and NBA accreditation for individual programmes, in addition to its statutory status as an Institute of National Importance. This should be cross-verified against the official NAAC/NBA certificates or the IIT Indore Annual Report before being treated as final, since NAAC/NBA accreditation status was not found directly stated on the primary iiti.ac.in pages retrieved so far.

Secondary source (to be cross-checked): <https://colleges.freejobalert.com/colleges/indian-institute-of-technology-indore/rankings>

1.8 Rankings

NIRF 2025 (India Rankings, Ministry of Education) — Engineering Category, verified directly from the official NIRF results table:

Institute	Engineering Rank (2025)	Score
IIT Madras	1	88.72
IIT Delhi	2	85.74
IIT Bombay	3	83.65
IIT Hyderabad	7	72.31
IIT Guwahati	8	72.24
IIT Indore	12	66.65
IIT Gandhinagar	25	62.31
IIT Mandi	26	62.08

Official NIRF results table (Ministry of Education): <https://www.nirfindia.org/Rankings/2025/EngineeringRanking.html>

IIT Indore's NIRF 2025 Engineering sub-scores: Teaching, Learning & Resources (TLR) 81.25; Research & Professional Practice (RPC) 59.55; Graduation Outcomes (GO) 76.52; Outreach & Inclusivity (OI) 63.77; Perception 27.15 — combining to an overall score of 66.65 and Rank 12.

Official NIRF PDF/table: <https://www.nirfindia.org/Rankings/2025/EngineeringRanking.html>

Note on conflicting secondary reports:

Several third-party college-guidance websites (e.g. CollegeDekho, CareerPlanB, FreeJobAlert-affiliated sites) report IIT Indore's NIRF 2025 Engineering rank inconsistently — figures of #11, #12, and #27 all appear across different secondary sources, and one conflates the Engineering rank with the separate 'Overall' category rank. The figure verified directly from the official NIRF portal (nirfindia.org) for the Engineering category is Rank 12 (score 66.65), and this is the number that should be treated as authoritative. The NIRF 'Overall' category (which includes non-engineering institutions and a different weighting) is a separate ranking list; that overall rank was not independently verified against the official table in this installment and will be confirmed in the next update.

QS World University Rankings: secondary sources place IIT Indore in the 1001–1200 band globally in the QS World University Rankings 2025, and around #15 in QS India rankings. This has not yet been cross-verified against the official QS website (topuniversities.com) and should be treated as provisional pending that check.

Secondary source (to be cross-checked against topuniversities.com): <https://colleges.freejobalert.com/colleges/indian-institute-of-technology-indore/rankings>

Times Higher Education (THE): secondary sources cite a band of 801–1000, also not yet independently verified against timeshighereducation.com and pending confirmation in a future installment.

1.9 Leadership

IIT Indore's Board of Governors has, per news coverage, been chaired by Dr. K. Sivan (former ISRO Chairman) since September 2023. The current Director should be confirmed directly from the official 'Director' page (<https://iiti.ac.in/director>) at the time of finalising this report, as directorship terms can change; this was not independently re-verified in this installment.

Official Director page — verify current incumbent here: <https://iiti.ac.in/director>

1.10 Awards & Achievements (recent, illustrative)

- Prof. Kapil Ahuja received the Springer Nature 'Editor of Distinction' Award 2025 for contributions to the Knowledge and Information Systems journal.
- Prof. Ram Bilas Pachori was appointed an Academy Mentor for the European Association for Signal Processing (EURASIP) Academy.

Source: <https://www.iiti.ac.in/>

A comprehensive, dated list of institutional and faculty awards will require extraction from the Annual Report and is planned for a later installment.

What's Next

The next installment will cover Section 2–3 (Undergraduate & Postgraduate Programmes) and Section 4 (Admission Process), researched and cited in the same verified format. Let me know if you'd like to reprioritize which section comes next.
